

MAGNUM FLyT 1.0a Foundation Layout Software

Copyright (C) 2012 All Rights Reserved

#### LIMITATIONS AND CONDITIONS OF USE

MAGNUM FLyT Version 1.0a is a BETA version that was released in September, 2012. As with any first release, there may be some glitches in calculations or software function. A registered design professional should double check all loads, spacing, and capacities prior to use in design and construction. Please report any omissions, errors, or software malfunctions to [engineering@magnumpiering.com](mailto:engineering@magnumpiering.com). Thank you for your support and use of Magnum Piering, Inc. products.

This is a free software to help with sizing and spacing of Magnum products for preliminary purposes. Magnum Piering, Inc. makes no warantee, express or implied, as to the accuracy of the results. All final designs should be completed by a registered design professional. By installing and using this software, user agrees to these limitations and conditions.
