VOL 2 August 2009

FEATURES:

ICC-ES APPLICATION

DR. PERKO'S NEW BOOK

INTEREST IN XTREME DUTY

CAPE CANAVERAL PROJECT

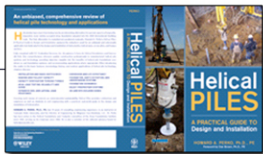

MINNESOTA BOARDWALK

Welcome to our Magnum Piering eNewsletter. First and foremost, all of us at Magnum sincerely hope that all of you reading this are surviving the recession - as best you can anyway. It's been tough on everyone, but Team Magnum can honestly say we are starting to see significant activity like we haven't seen for quite some time. Hopefully it is the start of a full recovery and not just a blip on the radar screen. Best to you all.

MAGNUM SUBMITS ICC-ES APPLICATION

Magnum VP's Bonekemper & Paddock prepare final ICC-ES application submittal package for two of the company's helical pile product lines. "We are now in the home stretch of what has been an incredibly long and expensive journey. The requirements of AC308 are most certainly raising the bar of performance and quality within the helical pile industry," says Bonekemper. [more...](#)

Dr. Perko's Book "Helical Piles - A Practical Guide to Design and Installation" is Due for Release in Early October

Textbook publisher, John Wiley & Sons, sets an early October release date for Dr. Perko's much anticipated textbook on helical piles. [more...](#)

Engineers' Interests Growing In Magnum® Xtreme Duty™ Helical Piles

More and more engineers around the country are inquiring about the axial and lateral load capacities of Magnum's 4.5" & 6" helical piles. With a range of 75 - 250 TONS, these helical piles offer another significant deep foundation option for engineers to consider for their projects. [more...](#)
