

# ALASKA WAREHOUSE SLAB

STEEL PIERING SYSTEMS • CHEMICAL GROUTING

## PROJECT DESCRIPTION:

Project Date: September 2006

Project Name: Peak Oilfield Services

Project Location: Prudhoe Bay, Alaska

Engineer of Record: CTL Thompson

General Contractor: Peak Oil Corp.

Magnum Installer: Dwyer Companies

Project Description: A warehouse slab dropped 24" and needed to be lifted. Dwyer raised the slab utilizing 82 steel piers and applied a chemical grouting system to stabilize the slab.
