

CASE HISTORY

Pacific Gas & Electric
San Francisco, CA

Magnum recently completed an installation and load test demonstration of MG3 Magnatude® piles and small T-Line pole grillages in San Francisco, CA for Pacific Gas & Electric (PG&E). Grouted test piles were designed for small 110 kV T-Line lattice structure loads of 50 kip vertical. A compression test of the installed Magnatude® was taken to 180 kips and exhibited only 0.06" of total pile head deflection."

U.S. Patent #'s 10947688B2, 10767334B2, 10934678B2
