

Steel Foundations 2025

A lot has happened since our last Newsletter, Time to Catch Up!

Building Expansion Complete!

MAGNUM® Piering, a leading manufacturer in Deep Foundations, completed a significant expansion of its facilities with the addition of an 40,000 square foot space. This major investment underscores MAGNUM's commitment to growth and enhanced capabilities in serving its customers.

The expansion will bring state-of-the-art equipment to increase manufacturing capacity, improve product quality, and allow for larger and more complex projects. Operational improvements include better workflow organization, more efficient material handling, and improved safety measures.

"This expansion represents a pivotal moment for MAGNUM®," said BJ Dwyer, VP of Sales. "It not only increases our production capabilities but also positions us to better meet growing market demand and provide superior service to our customers."

The new addition is expected to give MAGNUM® a competitive edge through advanced fabrication technology and faster turnaround times. It also lays the foundation for future growth and expansion.

Meet The New Additions To Our Team

In just one year, our team has expanded by 9 incredible individuals. Each new member brings unique skills and fresh perspectives, fueling our innovation and client success. This growth isn't just about numbers—it's a testament to our company's success and the increasing demand for our services. Each new hire brings unique skills and fresh perspectives, enhancing our ability to innovate and serve our clients.
